Features

SARIN Energy is proud of its high-quality LED Up-Down Lights. This product adopts the latest LED technology with high lumen efficiency combined with a IP-65 rating. SARIN is excited to offer this light to enhance the appearance of your buildings. Each of these models provide excellent light distribution and can add a POP of color to your business. SARIN Up-Down Lights are suitable for a variety of outdoor applications and have a long-lifespan of 50,000 hours.

CE

RoHS

Technical Description

This light is built with a die-cast aluminum housing with high corrosion resistant powder coating. The single cable entry is perfect for non-invasive installations. Never worry about ugly waterproof sealing as this light comes standard with high quality silicon gaskets to seal up the clear glass. This up-down light is available in round or square shapes, and either gray or black colored housing.
