Re: Testimonial

To Whom it May Concern,

Sarin Energy has provided professional services to the Liberty Hotel Group for 3 years. They have provided us with excellent advise and service to replace our properties current lighting with LED fixtures and obtaining any available rebates. Sarin Energy has also provided us with new fixtures to be used in our new construction projects. Their service and attention to our needs is a key contributor to our energy use reductions and cost savings. I highly recommend Sarin Energy, their professional approach and personal attention is the major factor in the success of our continued working relationship with them.

Randy Penick
Director of Development & Building Improvements
