SARIN LED Emergency Backlit Panel Lights are a good solution to retrofit fluorescent tubes with advanced LED technology that includes dimming options. Designed to install quickly and easily in T-bar ceiling grids or pendants, these systems deliver all advantages of LED in a fixture accessible from below the ceiling plane. They are an excellent replacement for fluorescent lights and can provide an energy savings of up to 60%. During a power outage, this panel light will provide 90 minutes of battery power.

This Panel Light is intended only for indoor use. These lights are perfect for offices, schools, places of worship, and hospitals.
