SARIN LED COOLER LIGHTS are perfect for grocery and convenience stores. They produce a wide beam for more evenly dispersed lighting when compared to traditional ones. This light delivers crisp, bright illumination that showcases the true vibrant colors of the food and products in freezers and walk-in refrigerators. They consume less energy, run longer and cooler than fluorescent freezer bulbs, lowering operating costs and reducing the risk of food spoilage.

These lights are easy-to-install and operate and have long lifespans.
