SARIN LED Adjustable CCT Linear Strips are commonly used to replace fluorescent lights in work areas. In addition to tunable color temperatures, the 4′ and 8′ models also allow you to switch between three wattage settings. The integrated emergency backup provides light for up to 90 minutes in the event of a power outage.

Not only can these be surface mounted but they also look great when suspended. LED Wraparounds are perfect for offices, garages, auto body shops, and car dealerships.
