SARIN LED SPORT LIGHTS are designed with power and savings in mind, delivering high-lumens from great heights at a fraction of the energy costs. Some of the benefits of replacing metal halide include instant startup, flicker-free and consistent lighting, no more humming, energy saving, and longer lifespan.

Sport lights, also known as stadium, ballpark, or field lights, are ideal for parks, sporting fields, gymnasiums, plazas, shipyards, airports, wharfs and areas with large spaces! Use them as high mast and contour lighting.

SARIN Sport lights are available in yoke or knuckle mounts with the option to include a laser pointer for precision positioning and a shield to protect the unit. They are rated safe for outdoor use and available in black, brown, or a custom color of your choosing!
